Help Uncle Mefi pass the LSAT

Cortex is assigning 5 mods (**LM**, **taz**, **EM**, **loup**, **thyme**) to shifts numbered consecutively 1 through 5. Each mod will also be responsible for testing mod note redesigns on one subsite (**Main**, **Ask**, **Talk**, **FanFare**, and **Music**). The following restrictions apply:

Music is assigned to shift 4

loup is assigned to the only shift between the shift testing **Main** and **Ask**

There are exactly 2 shifts between **EM**'s shift and the shift testing **Ask**

thyme is assigned to a higher-numbered shift than **taz**

Given those restrictions, answer each of the following questions:

1. The shift to which **loup** is assigned must be a shift that is:

- A. Immediately before or after **LM**'s
- B. Immediately before or after **taz**'s
- C. Separated by exactly one shift from **taz**
- D. Separated by exactly one shift from **EM**
- E. Separated by exactly one shift from **thyme**

2. If **EM** is assigned to shift 2, which one of the following assignments must be made?

- A. Testing **Main** on shift 1
- B. Testing **Ask** on shift 5
- C. Testing **Talk** on shift 1
- D. Testing **Talk** on shift 3
- E. Testing **FanFare** on shift 5

3. Which one of the following is a complete and accurate list of which mod could be testing **Main**?

- A. **LM**, **taz**
- B. **loup**, **thyme**
- C. **LM**, **taz**, **EM**
- D. **LM**, **taz**, **thyme**
- E. **taz**, **loup**, **thyme**

4. If **taz** is testing **FanFare**, then it must be true that:

- A. **Ask** is tested during shift 1
- B. **Talk** is tested during shift 2
- C. **LM** tests **Music**
- D. **EM** tests **Main**
- E. **loup** tests **Talk**

5. If **LM** tests **FanFare**, which one could be the mod assignments, from shift 1 to shift 5:

- | | | | | | |
|----|------------|--------------|-------------|--------------|--------------|
| A. | LM | EM | taz | loup | thyme |
| B. | LM | taz | EM | thyme | loup |
| C. | LM | thyme | loup | taz | EM |
| D. | taz | EM | LM | loup | thyme |
| E. | taz | thyme | EM | loup | LM |

**Hi, I'm on MetaFilter
and I could color in
a plate of beans**

Uncle Mefi's Big Book of Beans

Answer page

Uncle Mefi's LSAT

1. D, 2. B, 3. D, 4. B, 5. A

Spot ten differences

The second image has:

- extra apple in tree
- extra cloud
- (peeking out from behind tree)
- bird in the tree lacking a worm
- middle crouton with its tongue out
- grass/rocks at base of tree
- only one seagull on the pond
- only one mountain range
- bunny in bottom right corner
- extra pine tree
- sun has an extra ray
